The application has been amended as follows:

In line 1, replace "An organic" to -The organic--.

2. Claims 1, 6 and 7 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claim 1 recites a polymer compound film covering the organic electroluminescent element and a surface of the substrate around the organic electroluminescent element wherein the polymer compound film is a paraxylylene polymerized film; and an inorganic barrier film covering the polymer compound film, an edge thereof, and a surface of the substrate around the polymer compound film, wherein the inorganic barrier film is made of silicon, wherein the edge of the polymer compound film is so formed that the edge becomes gradually thinner, which are not suggested or disclosed by the prior of record.

Claims 6 and 7 are dependent on claim 1.
